0881082035418 | leenelvin9@gmail.com | <https://www.linkedin.com/in/nelvin-lee>

I'm an Information Systems graduate with experience in various aspects of technology and software development. Through internships, I've gained practical skills in both technical and collaborative environments. I excel at adapting to challenging situations and building strong working relationships with colleagues.

Work Experiences

DANA Indonesia - Jakarta, Indonesia Jan 2024 - Present

SDET Intern

- Designing, developing, and maintaining automated test scripts using Appium and WDIO to validate front-end functionalities across multiple platforms and devices.
- Collaborating closely with developers, product managers, and other stakeholders to understand requirements and define test strategies that align with agile practices.
- Performing detailed analysis of test results, identifying defects, and working with the development team to resolve issues promptly.
- Continuously improving test automation frameworks and processes to enhance efficiency, coverage, and reliability.
- Participating in agile ceremonies such as sprint planning, daily stand-ups, and retrospectives to provide insights and updates on testing activities.
- Ensuring adherence to best practices in testing and quality assurance, promoting a culture of continuous improvement and excellence.

PT. Mandiri Utama Finance - Jakarta, Indonesia Feb 2022 - Feb 2023

Application Tester Intern

- Conducted website and mobile application testing based on predefined usage scenarios.
- Successfully implemented testing projects to meet company requirements.
- Compiled User Acceptance Test (UAT) documents to ensure that the developed website or application meets user needs.
- Created clear and user-friendly usage guides to assist users in navigating the application or website.
